

MIKE TANG

Designer/developer who strives to solve real world problems through pain-driven design and innovation. My skills and curiosity are focused on, but not limited to, user experience design, interaction design, and front end engineering.

EXPERIENCE

Doblet

Working remotely
06/2014 - Present

Product Designer, Front End Developer

- ✓ Sole designer and front end developer focusing on software/web experiences.
- ✓ Design early stage website and Android/iOS app user flows, interactions, and visual style.

Intuit

San Francisco, CA
03/2013 - Present

Front End Developer

- ✓ Design interactions and build responsive interfaces that improve the user experience of Intuit Demandforce's website.
- ✓ Lead efforts to restructure the website's information architecture and streamline user flow.

The Energy Coalition

Los Angeles, CA
09/2010 - 02/2013

User Experience Designer, Web Developer

- ✓ Sole in-house UX designer, web developer, and researcher for The Energy Coalition's website redesign project.
- ✓ Conducted client and staff interviews, distributed surveys, facilitated card sort exercises, and analyzed content inventory to gather design insight and prioritize business goals.

Visual Designer

- ✓ Designed all visual elements that would represent The Energy Coalition on its new website and beyond - icons, colors, typography, vector illustration, and layout design.
